

CIAO, HELLO & HALLO

Please let us introduce ourselves: we are Marie, Marielle & Vivi. We are in our twenties and currently studying eco-social design as master at the UniBZ. We noticed that there are very few events for young women in Bolzano – so we are here to change that.

We want to create events to which we ourselves would want to go to. Events that are creative, educative and most of all fun. Through activities like poetry slams, workshops, movie screenings, talks, exhibitions, concerts, readings, comedy evenings, theatre shows, ... we want to create a community and build up a network of like-minded young women. A space, where we can lift each other up and collaborate together. As a group, we can share our skills and provide a platform for artists, speakers and creators, who are usually left out. We can become a safe space, which empowers especially female creators to be seen.

OUR PLAN

We plan a series of events focussing on Art & Culture. This series starts with a pilot event on January 22th in which we want to do a guided creative workshop in a bar based in Bolzano's Don Bosco. During this afternoon participants will have the chance to create their own linocut designs, print and take them home with them. There will be a live DJ throughout the workshop. This event is aimed at young women, but open to the general public. It will serve as a first test-run for following events.
